How to order passionflowers

We send passionflowers only within the European Union. The smallest amount for deliveries abroad is 4 plants. Unfortunately, it happens over and over again that passionflowers are cultural-conditioned sold out or are available only in small numbers. Please, list some substitutional plants on which we can fall back if necessary, in your order.

We start with the dispatch at the end of March. A lot of passionflowers are ready for sending in the second half of May, so that we send most parcels in May and June.

How do I order the plants?

You can order the plants with the help of the German-speaking online shop or simply send an email with your order to: info@blumen-passiflora.de
Together with your order please give your detailed address and always include the telephone number.

How long does it take?

As a rule the plants are on the way between 3 and 5 days. The precise delivery period depends on the country. It is 3 (to 4) days with parcels to the Netherlands, Belgium, Austria, France, Denmark and Great Britain. Parcels to Italy, Spain and Portugal take 4 to 5 days. We dispatch all parcels abroad at the beginning of the week, so that the delivery period is not prolonged because of the weekend.

How high are the forwarding expenses?

The forwarding expenses for deliveries abroad to 19.00 to 37.00 Euro, depending on the number of plants and the country. The precise amounts for each country are as follows:

Country	4-8 plants	9-15 plants	16-30 plants
Belgium, the Netherlands, Denmark, Austria	19,00 Euro	22,00 Euro	25,00 Euro
France, Italy, Great Britain	23,00 Euro	26,00 Euro	29,00 Euro
Spain, Portugal, Ireland, Finland, Sweden, Poland, Czechia	29,00 Euro	33,00 Euro	37,00 Euro

Deliveries abroad are carried out by German Logistic System. You can check the stage of your delivery under www.gls.com.

How do I pay?

Together with the plants you receive an invoice. At the bottom of the invoice you find the IBAN and BIC numbers. With the help of both No. you can make a toll-free international bank transfer. You can also pay for the plants with an international money order. The third possibility would be a registered letter with cash. Unfortunately, a payment with credit cards is not possible.

Visit us during our open days, called "Passionsblumentage"

You are travelling through Germany or would like to visit us sometime? - A special event for plant lovers are our open days which take place annually in our garden. In a pleasant and quiet atmosphere you can look at and buy hundreds of passionflowers. Our nursery in Witten is very close to Dortmund, Bochum and Hagen. It takes about 45 minutes to go by car from Düsseldorf or Cologne. Please, expect no big garden centre. It is rather a private garden, mostly outdoors.

Passiflora

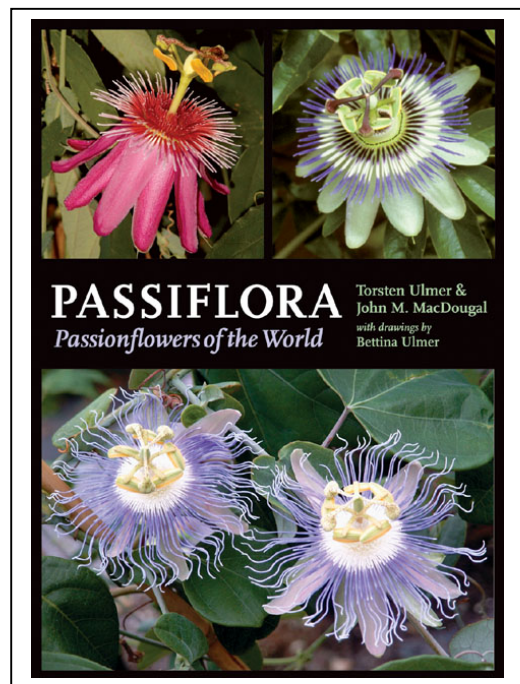

Passionflowers of the World

By Torsten Ulmer and John M. MacDougal

Drawings by Bettina Ulmer

Since they were first described in Europe in the 16th century, passionflowers have held a special fascination among plant collectors for their bold, beautiful, complicated blossoms and delectable passionfruits. Most are perennial climbers, but some are trees, shrubs, herbaceous plants, or even annuals, and all lend a dramatic, tropical flavor to any situation. Since they have such a broad range of cultivation requirements, passionflowers can be grown by just about anyone, and cold-hardy species can be grown outdoors year-round. This authoritative, comprehensive volume describes 207 *Passiflora* species and 31 hybrids. A chapter is devoted to the remarkable coevolution of passionflowers with *Heliconius* butterflies, which many passionflower enthusiasts now raise alongside flowering vines in the greenhouse. As lushly illustrated as it is informative, *Passiflora: Passionflowers of the World* reveals the immense variation found among members of this extraordinary genus.

Media reviews of this book:

"This book will certainly convince you to experiment!"

—Jim Kemper, Current Books on Gardening & Botany, August 2005

"The authors...have created a worthy and unique work that will be welcomed by botanists and gardeners alike."

—January Adams, *American Reference Books Annual*, 2005

"A passion for *Passiflora* will surely be rewarded by this compendium of the vine with mysterious flowers and legendary fruit that can also be a shrub or a tree. ... It is hard to imagine anything that one would want to know about *Passiflora* that could not be found in this book."

—Marge Howard-Jones, *California Garden*, May/June 2005

"If you weren't overly excited about passionflowers before reading this book, the over 300 excellent color photos of blossoms should change all that."

—Susi Torre-Bueno, *Let's Talk Plants*, January 2005

"[This book] is a great resource if you, like me, just have to find out."

—Vern Nelson, *Oregonian*, February 24, 2005
